## Sexual Offense Evidence Kit Inventory Report 2017

February 28, 2018

## Table of Contents

I.	Overview	Page 1
II.	Table One: Sexual Offense Evidence Kit Activity and Inventory Report by Agency	Page 3
III.	Table Two: Sexual Offense Evidence Kit Activity and Inventory Report by Lab	Page 25

## Overview

This report is published pursuant to state Executive Law §838-a, which requires statistical reporting and testing related to sexual offense evidence kits.

The law designates the state Division of Criminal Justice Services (DCJS) as the agency responsible for informing law enforcement about reporting requirements and collecting statistical data reported quarterly by those agencies and forensic laboratories. It also requires DCJS to submit to the leadership of the New York State Senate and Assembly an annual report detailing statistics as submitted to DCJS by those agencies and laboratories.

Due to effective date of the reporting provision of the law, this report only contains information about kits received by law enforcement and laboratories between Nov. 28 and Dec. 31, 2017. Reports published in the future will contain full-year statistics, broken down by quarter, as submitted by law enforcement and laboratories.

Police departments, sheriffs' offices and district attorneys' offices are required to report:

- the number of sexual offense evidence kits received during each quarter;
- the number of kits received each quarter that were submitted to a forensic laboratory;
- the number of kits received each quarter that were submitted to a forensic laboratory within 10 days;
- the number of kits received each quarter that were submitted to a forensic laboratory more than 10 days later; and
- The total number of kits that remained in inventory at the end of each quarter.

Laboratories are required to report:

- the number of sexual offense assault kits received during each quarter;
- the number of kits received each quarter that were processed;
- the number of kits received each quarter that were not tested; and
- a reason why untested kits were ineligible for testing.

### **Table 1: Law Enforcement and Prosecutorial Agencies**

Summary:

- 434 out of 604 agencies provided data for this report.
- A total of 96 kits remained in those agencies' custody and control on Dec. 31, 2017.

## **Table 2: Forensic Laboratories**

### Summary:

- All nine forensic laboratories in the state provided data for this report.
- A total of 864 sexual offense evidence kits were received by those labs during the reporting period.
- A total of 381 kits, including kits received prior to the reporting period, were processed as of Dec. 31, 2017.

### Note:

- Tables 1 and 2 list all police departments, sheriffs' offices, district attorneys' offices and forensic laboratories required to report information to DCJS and the corresponding data they reported to DCJS.
- Entities that did not report are denoted with an asterisk.

Definitions of Kits Not Processed Categories:

CODIS Ineligible - Sexual offense evidence kit was deemed to not contain a CODIS eligible DNA profile.

PM Exam Not Sexual Assault - Sexual offense evidence kit was collected during a post-mortem (PM) exam and is not associated with a sexual assault.

In Progress - Sexual offense evidence kit has been assigned to an analyst but has not yet been completed.

Not Processed - Sexual offense evidence kit has not yet been assigned to an analyst.
