For each program area, the CRTFs record whether an assessment is conducted as well as the outcome of the assessment. The majority of Track I clients were assessed for all needs areas. Data by county is on pages 14-15.

The following chart shows the proportion of clients who did not have their need met while engaged in the CRTF because an appropriate program does not exist in that county or the client was placed on a waiting list.

- The needs areas with the largest proportion of Track I clients who did not get their need met due to lack of an appropriate program were Mentoring (29% of clients with an assessed need) and Sex Offender Treatment (15%). See pages 17-21 for county specific information.
- Needs areas with the largest proportion of Track I clients still on the waiting list for a program at discharge were Cognitive Behavioral Intervention (9%), Education/Vocational Services, Employment Services, and Mental Health Services (7% each). See pages 17-21 for county level data.
