

Division of Criminal Justice Services

The Division of Criminal Justice Services partners with local law enforcement agencies to support a network of Crime Analysis Centers that provide investigative support and information to help police and prosecutors more effectively solve, reduce and prevent crime. The 10-center network was built upon conventional crime analysis services historically embedded with local law enforcement agencies. The Centers coordinate, expand and enhance those services, including but not limited to hot-spots analysis, crime pattern identification and analysis, and provide real-time investigative support to law enforcement agencies.

Capital Region Crime Analysis Center

Albany, Rensselaer, Saratoga and Schenectady counties

(518) 462-6380 or crcac@albanyny.gov
