

Division of Criminal Justice Services

Quarterly Activity Report **County Re-entry Task Forces (CRTF)**

July 2014 – June 2015

Data as of July 2015

Quarterly Activity Reports are provided to ATI/community correction, re-entry employment programs, and CRTFs funded by DCJS. These preliminary reports reflect data that are reported to DCJS as of the date indicated and should be reviewed carefully by the programs. Any corrections should be included in the data submission for the next reporting period. An annual report with final case counts will be distributed at the end of the calendar year, after all adjustments have been made.

Issued September 2015

Appendix A. Detailed Description of Tables	42
Appendix B. Matching Admissions to CCH	43

Background

The NYS Division of Criminal Justice Services (DCJS) provides important feedback to funded programs through this Quarterly Activity Report. The report presents the number of participants admitted and discharged each quarter, as well as a year-to-date total. The report includes information on participant characteristics, such as age, race/ethnicity, criminal history, and current criminal charges, for County Re-entry Task Forces (CRTF) programs funded by DCJS. Details are provided for participants admitted to and discharged from the CRTFs since July 1, 2014.

The information presented in this report reflects data provided by the CRTFs as of June 30, 2015. Updated information provided by the CRTFs will be included in future reports. The annual year-end report will present final counts of CRTF admissions and discharges.

Report Tables

The Quarterly Activity Report presents the tables listed below. A detailed description of each table, including how cases were counted, can be found in Appendix A. A description of the process used to match cases to criminal history information can be found in Appendix B.

- Table 1 – Program Admissions, by Program
- Table 2 – Program Discharges, by Program
- Table 3 – Participant Characteristics, by Program
- Table 4 – Program Outcomes, by Program

Table 1. Program Admissions, by Program

	Apr - Jun 2015	Cumulative to Date Jul 2014 - Jun 2015		
	Total Admissions ¹	Total Admissions ¹	Total Participants Admitted ²	Quarters Reported
Albany County CRTF	62	251	251	4
Bronx County CRTF	32	134	134	4
Broome County CRTF	44	162	162	4

Appendix A. Detailed Description of Tables

Table 1 presents admissions to each of the funded programs for the most recent quarter and the contract year-to-date. Table 1 includes all admissions since July 1, 2014. If a participant was admitted more than once, all admissions to the program are counted. The admissions are then summed to produce a cumulative number of admissions reported during the contract period. The number of participants admitted each quarter is presented next. The number of participants will differ from total admissions if a participant had multiple admissions to a single program. For example, a participant could be admitted in January, discharged in February, and admitted again in March. This case contributes two admissions to the total, but only counts as one participant. The Total Participants Admitted provides a measure of the number of people being served by the program. Number of Quarters Reported shows how many quarters of data were provided by the programs.

Table 2 uses the same counting rules to report the number of discharges each quarter. Total Discharges counts every discharge from the program, including cases where a participant was discharged more than once from the same program. The year-to-date total provides a count of the total number of discharges during the contract year. The Total Number of Participants Discharged provides a count of the number of people being discharged each period. Finally, Number of Quarters Reported shows how many quarters of data were provided by the programs.

Table 3 presents more detailed information on the participants' characteristics, for each admission during the reporting period and cumulative through the contract year. Information is provided separately for each program. Characteristics include sex and age at admission; race/ethnicity; COMPAS supervision level and intake needs. Counts, percentages, and program totals are presented. Legal history, including the total number of arrests that appear in the participant's criminal history record, number of prior felony arrests, and number of prior felony convictions; average number of prior arrests and convictions and characteristics of the placement offense. Violent Felony includes all violent felony offenses and VFO-like offenses (see PL 70.02); Drug Offense includes all PL 220 and PL 221 offenses that are not otherwise VFOs; DWI includes VTL 1192, 511.00; Property includes non-VFO property offenses (e.g., petit larceny); and Other Offenses includes all other PL and VTL offenses not otherwise categorized. The percentages for Felony Total and Misdemeanor Total is presented. The percentages for Felony Total and Misdemeanor Total sum to 100%; however, in certain instances total percent may not sum to 100% if placement offense information is missing. Participants with missing or invalid NYSIDs are not included in the table.

Table 4 presents detailed information about each program discharge, including the program outcome, reason for Unsuccessful Discharge, and median number of days in program for all reported discharges.¹ Program outcome includes Successful Discharge, Administrative Discharge, Unsuccessful Discharge, Transferred to non – CRTF area, and Transferred to other – CRTF area. If the outcome is Unsuccessful, the Reason for Unsuccessful Discharge is also presented, including New Arrest, Non-Compliance, Parole Violation, Program Expulsion, and Voluntary Withdrawal. Note that the counts of new arrests will only include those arrests known to the programs. Because programs do not have access to official information on new arrests, the number reported undercounts the actual number of participants being arrested while enrolled in the program. Counts and percentages for each quarter are presented, as well as a contract year-to-date total.

¹ The median number of days in program presents the middle value, when days are ordered from lowest to highest. Compared to the mean, it is less influenced by extremely low and/or high values when there are few cases being reported.
DCJS Office of Justice Research and Performance

Appendix B. Matching Admissions to CCH

The Computerized Criminal History (CCH) database includes all fingerprintable arrests reported to DCJS, as well as information about case dispositions. CCH data provide a complete history of an arrestee's known criminal activity.² OJRP developed the following rules to match admissions to CCH data. After extensive analyses, these rules were determined to provide the best matches to arrests in CCH for the programs funded by DCJS.

Matching Rules

1. Files were first matched on NYSID and DIN, as provided by the programs.
2. If there was not an exact match on NYSID and DIN, cases were matched to the last DOCCS release before program admission.
3. If the NYSID was not provided or did not match to CCH, the admission was excluded from further analysis.

The Detailed Admission tables included in this report present information on only those admissions that were matched to CCH (99% of reported cases). Of the 60 cases not matched to CCH, 25 had invalid NYSIDs, 10 had missing NYSIDS, and 25 did not have an eligible DOCCS release date, based on the rules outlined above. NYSIDs that were not matched to CCH will be provided in a separate file to the affected programs.

The matching results are summarized below.

Matching CRTF Admissions to CCH

Matching Process	Number	Percent
Total Number of Reported Cases	4,346	100%
Match by NYSID and DIN	4,246	98%
Match by NYSID and last DOCCS Release before Admission	40	1%
Total Matched to CCH	4,286	99%
Total Not Matched to CCH	60	1%

² Arrests in CCH are organized by NYSID, which is assigned when an arrestee is fingerprinted. If the case is disposed in favor of the defendant, and the defendant has no prior convictions, the fingerprints are destroyed and the NYSID is no longer assigned to that defendant. If the defendant is re-arrested, a new NYSID is assigned. Because CCH is organized by NYSID, the initial arrest, stored under a different NYSID, is not included in the defendant's arrest history, and would not be reflected in Table 3.
