Additional Notes

- This spreadsheet only contains agencies that reported use of force incidents.
- Each row in the spreadsheet represents one use of force incident except for seven incidents that are displayed on more than one row because two agencies reported more than 10 officers involved in each of those incidents: New York State Police (response IDs 3771, 3778 and 3951) and Rochester Police Department (response IDs 4679, 4681, 4682 and 4705).
- New York City Police Department (NYPD) only reported incidents where a firearm was used or discharged, or where a chemical agent, electronic control weapon, or impact weapon was used or deployed. In addition, the NYPD did not report whether a

chokehold or restraint was used or if there was conduct that resulted in serious bodily injury or death.
