#### Introduction

The NYS DCJS Office of Probation and Correctional Alternatives is pleased to share this revised Annual Probation Plan and Application, which was developed with the input of Probation Directors, and reflects the requirements of New York State Executive Law §246, "State aid for probation services" and Title 9 NYCRR Part 345 "Probation State Aid Block Grant".

Per Part 345 of 9 NYCRR, the Probation State Aid Block Grant rule, the Commissioner shall allocate block grant monies based upon a review of all approved plans and their respective budgets and pursuant to a plan prepared by the Commissioner and approved by the Director of the Division of the Budget. All state aid shall be granted by the Commissioner after consultation with the State Probation Commission and the Director. Part 345 further offers that probation state aid monies received by the Division shall be, to the greatest extent possible, distributed in a manner consistent with the prior year's allocation, and thereafter as authorized by law.

As part of the application for probation state aid, Part 345 requires localities to provide a detailed plan with cost estimates covering probation services for the fiscal year or portion thereof for which aid is requested, and other pertinent information including an overview of probation program services relating to staff training, investigation, supervision, and intake. An approved plan and compliance with standards relating to the administration of probation services, promulgated by the Commissioner in consultation with the Director, shall be a prerequisite to eligibility for State Aid. When available, localities may apply for additional state aid as part of a block grant award for enhanced program services with respect to specific populations.

Please note that NYS Executive Law §246 offers that an approved plan and compliance with standards relating to the administration of probation services promulgated by the Commissioner shall be a prerequisite to eligibility for state aid. Executive Law also authorizes the withholding of state aid to any locality, in the event that such locality, (a) fails to conform to standards of probation administration as formulated by the director pursuant to this section, (b) discontinues or fails to follow an approved plan, or (c) fails to enforce in a satisfactory manner rules promulgated pursuant to this section, or laws now in effect or hereafter adopted which relate in any manner to the administration of probation services.

All of the questions in this application must be answered in their entirety and submitted together along with any additional documents which may be required.

All amounts for programs or services performed by probation staff should be included for both 2021 and 2022 whether in one or multiple accounts in the county budget/reporting. Among these programs would be Juvenile Services, DWI, or Alternative to Incarceration or other programs.

2021 expenditures and revenues should include all amounts through 12/31/21 and accompanying documentation should be dated 12/31/21 or after.

Documentation for 2022 appropriations and projected revenue amounts should be from adopted 2022 budgets.

If fringe benefits are not included in the county budget or reports, please request a statement of 2021 expenditures and/or 2022 anticipated costs for all fringes from the county treasurer or other fiscal authority.

### **Part 3: Staffing Patterns**

#### **FULL TIME EQUIVALENT POSITIONS**

The purpose of this chart is to summarize staffing information by position title and the cumulative proportion of all staff members' time allocated to a generic probation function **as of 12/31/2021**.

For example, one full-time probation officer who spends approximately half of his/her time doing adult supervision and the other half doing juvenile supervision would be counted as .5 of a full time position in Criminal Court – Supervision and .5 of a full time position in Family Court – Supervision. The totals for each box are the totals for each title performing that particular function. Please do not list by individual position. The total FTE's, bottom row in the last column box\*, should equal filled positions on Part 2 Section 1 Summary Chart, which can be found on page 13.

#### Full Time Equivalent (FTE) Staff Persons per Appendix H-10

For Supervisory positions the time box is split for each primary function with "SF" = Time Spent Supervising Performance of the Function and "PF" = Time Spent Actually Performing the Function.
