| 1 | 67 | Question # 4 | On pg. 67 of RFP, number 4 discusses clients that must have fees waived when ordered by court. Does DCJS have any information they can provide about how many clients fall into this criteria? | Regulation section 358.5(b)(2) states: Every manufacturer who applies shall provide a thorough description of each device intended for use in New York State, provide proof of such certification by the department of health for each device intended for use in New York State, and the fee structure associated with that specific device. Descriptive information about the device shall include but not be limited to: make and model of device, special features of the device such as camera, reporting capabilities, removable head, global positioning system, and real-time reporting. Fee structure information shall include any and all fees charged to the operator, including but not limited to installation fee, monthly fee, any special service fees, and de-installation fee. The proposed fee structure shall take into consideration and be based upon an anticipated ten percent (10%) waiver of the fees by criminal courts due to operator unaffordability. Annually, on or about February 15th of each year, the division shall review requests by qualified manufacturers for rate adjustments which shall include information submitted by qualified manufacturers involving unaffordability waivers granted by courts. At its discretion, the division shall approve rate adjustments where appropriate. Please refer to the attached data sheets for 2018 and 2019 information |
